

2018

602 RECERTIFICATION
PROGRAM

GENERAL INFORMATION

- 1 . A competitor can have an engine recertified through Riverhead Raceway's Organization. This recertification is only to fix minor problems and not to rebuild. The repairs must be done by the Riverhead Raceway authorized repair shop. It is mandatory that the said engine must run on dynamometer.
2. ONLY Riverhead Raceway 602 Crate engine with the correct non tampered seal would be eligible for recertification.
3. All engines must remain as delivered by General Motors. GM 602 crate engine replacement parts are the only parts used to repair the recertified crate engine.
4. It is strictly forbidden to tamper with the factory and/or Riverhead Raceway seals. Anyone caught tampering with the factory and/or Riverhead Raceway seals will be subject to severe penalties.

Divisions that Recertified engines are eligible for:

Super pro trucks
Blunderbust
Figure 8
Street Stocks

5. Riverhead Raceway must be notified of the transfer of ownership of any 602 or 604 crate engine.
